6 **SEC. 2. FINDINGS.**

7 Congress makes the following findings:

8 (1) The United States faces a critical lack of
9 domestic industrial capacity necessary to support

2 a major conflict.

3 (2) Current and building shortages of muni-
4 tions and materiel are estimated to require years to
5 replenish sufficiently.

6 (3) The domestic industrial base is shaped by
7 Federal government policies, including by a raft of
8 regulations that often inhibit production and expan-
9 sion.

10 (4) The lack of industrial capacity now con-
11 stituted a major threat to the national security as
12 conflicts supplied with United States arms escalate
13 around the globe and imminent threats to United
14 States interests have emerged.

15 (5) Before entering World War II, the United
16 States faced a similar crisis of adequate defense pro-
17 duction as it supplied its allies in Europe and pre-
18 pared for the event of war.

19 (6) In 1940, William S. Knudsen, an American
20 automotive executive, was tasked with coordinating
21 and spearheading the nation's war production by
22 serving as the chairman of the Office of Production
23 Management and as a member of the National De-
24 fense Advisory Commission.
